DR. BEACH INDICTED

Must Answer to Charge of Willful Murder in Lewis

It will be remembered that Dr. C. M. Beach, who killed Hiram F. Luman at Escalapa Springs several weeks ago, after an examining trial, was admitted to bail in the sum of \$1,000.

Yesterday the Grand Jury, now in session at Vanceburg, indicted Dr. Beach for willful murder, and, though the man was in the Court-house when the indictment was returned, when the officers looked for him to lock him up he could not be found. He had skipped.

Judge J. M. Lee and the Sheriff of Lewis county were here last evening consulting the local officers.

YESTERDAY'S WRECK

Three Freight Cars Dumped at Front and Market Streets

The wreck on the C. and O. yesterday at the foot of Market street was quite a disastrous one in a financial sense.

Fortunately, however, not a single life was lost or a person hurt, though there were several miraculous escapes.

There are numerous versions as to the cause of the accident.

One says a broken brakebeam did the work, while another, equally as well informed, says the parting of the airbrake did the business.

An eye-witness says when the airbrake parted the escaping air dug up the sand and gravel on the track at a fearful rate.

Whatever may have been the cause it did its frightful work all the same.

The train was a long and ponderous one and was running at a low rate of speed. The locomotive had almost reached the Depot when the crash came.

There were three empties in the center of the make up, and when the locomotive slowed up the momentum and impact of the heavily loaded cars in the rear caused the three lighter ones to buckle and rear up and they were precipitated down a fifty-foot embankment, turning over, one of which was knocked into kindling wood.

J. O. Power and J. Dickson, hailing from Concord, were hobnobbing their way to Cincinnati and were occupants of the car that was literally broken to pieces.

Their escape was marvelous, neither of them receiving a scratch.

When the accident occurred one of the men was whittling with a pen knife and notwithstanding the car virtually turned a somersault in its descent down the embankment, he still retained the knife in his hand when he emerged from the wreck.

As a general thing that part of the viaduct and bank has more or less people lined along watching the workmen on the ice piers.

Fortunately, on this occasion they all moved to the South side of the track when they saw the coming train, else a number would have been killed.

The wreck did not interrupt traffic, as trains passed East and West over the South track.

The wrecking crew in charge of Captain C. W. Gillespie of Covington arrived in the afternoon and in several hours had the track cleared. Just after getting the track clear and preparing to pull the cars up the bank, Captain Gillespie got a telegram to come at once to Dayton to clear away a more serious wreck.

Two of the cars under the bank can be reclaimed.

The loss will aggregate several hundred dollars.

If the Russians in Manchuria had shot off their guns as rapidly and as vigorously as Colonel M. Witte has been shooting off his mouth in New Hampshire, there wouldn't be a Japanese soldier left to tell the tale.

THE Cincinnati Post says that "But for the War on GEORGE B. COX the world would be at peace." As the war on Mr. Cox is conducted by The Post, and nothing more fatal than "hot air" and paper wads are used, it is not likely to prove disastrous.

THERE were two hoboes in one of the Freight Pullmans thrown over the bank at the foot of Market street yesterday noon. They had their usual good luck with them, and escaped without a scratch. However, they were seriously inconvenienced by the interruption, as they were due in Cincinnati for free lunch and beer last night, and no time should be lost in bringing the customary damage suit.

THE San Francisco Labor Council has adopted a resolution declaring its determination to exercise the right of the strike, boycott and picket, despite the injunctions issued against it. What law-abiding fellows these modern Anarchistic Labor Leaders are, to be sure!

AND what do you think of this? The Deputy Sheriffs and Policemen of Chicago have formed a Strike-breakers Union. They fixed the scale at \$5 a day—and \$6 if they could get it;—and then 110 of them fell over each other to sign the charter and pay 25 cents initiation fee.

PARIS possesses a curious organization with an odd purpose. It is a band of prosperous tradesmen, who agree to trade with one another to the utmost extent possible, and when necessary to help one another with loans without interest; and isn't that plan much better than the one in vogue in most American towns, where tradesmen are cutting and slashing prices in hope of putting their competitors out of business?

AN enterprising but otherwise esteemed contemporary headlines a recent telegram, "Disastrous Fire Almost Wipes Out Flemingsburg." Not by a long shot. In the first place, but comparatively small part of the business district was destroyed; then, if every house in town had been reduced to ashes, "Flemingsburg," honorable with age and proud of her history, would still have asserted herself by shaking off the ashes and rising from the ruins—"rejuvenated and disenthralled"—and don't you forget it!

## Gain Strength for Work

In office and factory, shop, store or kitchen girls are at work all over this land, and, alas! far beyond their strength. Young women who work are especially liable to female ills. Too often the girl is the bread winner of the family and she must toil unrelentingly, no matter if her back does ache, her limbs and abdomen throb with dull pain and dragging sensations, and dizzy spells make her utterly unfit for work. These are the sure signs of female irregularities which kill beauty and youth.

## Lydia E. Pinkham's Vegetable Compound

builds health and strength for all women who work and are weary. It creates the vitality that makes work easy. From the thousands of grateful letters written by working girls to Mrs. Pinkham we quote the following:

DEAR MRS. PINKHAM:—I feel it my duty to tell you the good Lydia E. Pinkham's Vegetable Compound and Blood Purifier have done for me. Before I took them I was very nervous, had dull headaches, pains in back, and monthlies were irregular. I had been to several doctors and they did me no good.

Your medicine has made me well and strong, I can do most any kind of work without complaint, and my periods are all right.

I am in better health than I ever was, and I know it is all due to your remedies. I recommend your advice and medicine to all who suffer.

Miss Abby F. Barrows, Nelsonville, Athens Co., Ohio.

Oh, if American girls who work would only realize that they have but one life to live, and make the most of their precious health and strength!

Mrs. Pinkham extends to every working girl who is in ill health a cordial invitation to write her for advice. Such letters are always kept strictly confidential, and from her vast experience Mrs. Pinkham probably has the very knowledge that will help you—and may save your life.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
